

Drop Shades

Sun-Pro Shade System

The Sun-Pro offers a streamlined, five-inch box and large roller tube allowing widths up to 25 feet and heights up to 13 feet. Our heavy-duty, boxed drop shade leads the way with the most extensive options and applications in the industry. Hardware colors are available in brown, cream or white. The Sun-Pro solar screening system is manufactured using corrosion resistant materials such as extruded aluminum, powder coating and specially reinforced synthetic components.

Sunbrella Certified Fabric

10 Year Fabric Warranty

100+ Solid and Stripes

5 Year Motor/Electronic Warranty

Heavy-Duty Exterior Shade

The Sun-Pro exterior drop shade system is ideally suited for sliding doors, stucco overhangs, entrance ways or any opening in which the tracks can be mounted vertically to provide instant shade and heat protection.

Detail and Quality

Attention to detail and quality control are critical prerequisites in the fabrication of the Sun-Pro drop shade system. Each Sun-Pro drop shade is custom-built to fit each specific request.
